

Spartan Space expands into Germany with the opening of Spartan Space GmbH

Gilching, Germany, June 2, 2026 - Spartan Space is pleased to announce the opening of its German subsidiary, Spartan Space GmbH, in Gilching, Bavaria. Located within the premises of ASTO-Aerospace, this new entity marks a significant milestone in the company's international development and its integration into one of Europe's most dynamic space ecosystems.

Through this new presence in Germany, Spartan Space reaffirms its commitment to contributing to the growth of the Bavarian and German space sectors, renowned for their technological excellence, strong industrial base, and central role in European space programmes.

Spartan Space GmbH will primarily focus on the development of space robotics technologies and the execution of defence and security projects. The new subsidiary will strengthen the company's research and development capabilities while fostering closer cooperation with industrial, institutional, and academic partners across Germany and Europe.

"The opening of Spartan Space GmbH represents a major step forward in our European growth strategy. Establishing a presence in Gilching allows us to work closely with key players in the German and European space ecosystem while accelerating the development of our activities in space robotics, defence, and security," said Peter Weiss, CEO of Spartan Space GmbH.

The establishment of Spartan Space GmbH reflects the company's long-term vision of delivering innovative solutions for next-generation space missions and contributing to the strengthening of Europe's technological capabilities in space and defence.
